

## *Sail The Ship Challenge!!!*

### **Sail the Ship Challenge!**

This is a team building program on a large sailboat used for sea training.

While learning the necessary knowledge for sailing the boat under the supervision of training officers, participants are assigned to one of the four major roles in maneuvering, and set sail from Yokohama port.

This program can be arranged either as a day program (maximum participants of 64), or a one night/two days program (maximum participants of 34). This program is perfect for sharing the sense of team achievement and to bring awareness to the importance of having mutual trust in teams.
